PROFILE

Information Systems student at the University of Johannesburg with interests in software development, databases, SQL, data analysis and cloud technologies. I enjoy learning by building practical projects, solving real problems and strengthening my technical skills through coursework, hackathons and training. My long-term goal is to grow into Data Science, while remaining open to opportunities across different areas of technology. I am looking for internship, graduate and entry-level opportunities where I can contribute, learn from a team and continue growing.

EDUCATION

Bachelor of Commerce in Information Systems - University of Johannesburg

Jan 2025 - Expected Nov 2027

PROJECTS & PRACTICAL EXPERIENCE

UJ Compass - UJ DevSoc Hackathon 2026, Team Grootman Hacks

- Built a responsive student-support prototype under an approximately two-hour hackathon deadline, covering smart service routing, support requests, digital queues, accessibility-focused navigation and prototype campus bus tracking.
- Technologies: HTML, CSS and JavaScript. [Live demo](#) | [Source code](#)

SQL Video Games Analysis - DataCamp

- Used SQL joins, aggregate functions, grouping and sorting to explore historical video-game sales and critic/user score data and identify trends.

C# Learning Journey

- Built C# exercises and small applications covering object-oriented programming, arrays, inheritance, exception handling, file handling and Windows Forms.

Student Mentor / Peer Support - Dinizulu Senior Secondary School | Aug-Nov 2024

- Supported learners with difficult concepts, encouraged participation and helped create a positive learning environment.

SKILLS

Programming & Development: C#, .NET Framework, Windows Forms, Basic HTML, CSS and JavaScript

Databases & Data: SQL, Microsoft SQL Server, SQL Server Management Studio (SSMS), database concepts, data analysis and Microsoft Excel

Development & Collaboration Tools: Visual Studio, Visual Studio Code, Git, GitHub and Jira

Currently developing: Python, Microsoft Azure and cloud technologies

Professional: Problem solving, teamwork, communication, research, presentation, critical thinking, time management and attention to detail

CERTIFICATIONS

- C# Foundational Certificate - freeCodeCamp - Completed
- AI Fluency for Students - Anthropic - Completed
- Artificial Intelligence in the 4IR - University of Johannesburg - Completed
- Advanced Information Literacy - University of Johannesburg - Completed
- Excel for the Workplace - University of Johannesburg - Completed
- Word for the Workplace - University of Johannesburg - Completed

CURRENT LEARNING & PROFESSIONAL DEVELOPMENT

- FNB App Academy - In Progress
- Introduction to Programming with Python - Harvard University / edX - In Progress
- Azure Data Fundamentals Programme - YES x Microsoft - In Progress
- AI Skills Acceleration Programme - CAPACITI - 2026

ADDITIONAL TOOLS & INTERESTS

Additional tools: Microsoft Word, Microsoft PowerPoint and Canva

Career interests: Data Science, data analytics, data engineering, information systems, software development and cloud technologies
